

The Rules of Measurement and Construction of the Express Pirate state that the Express Pirate shall only be built from materials and fittings approved by the Express Boating Organisation.

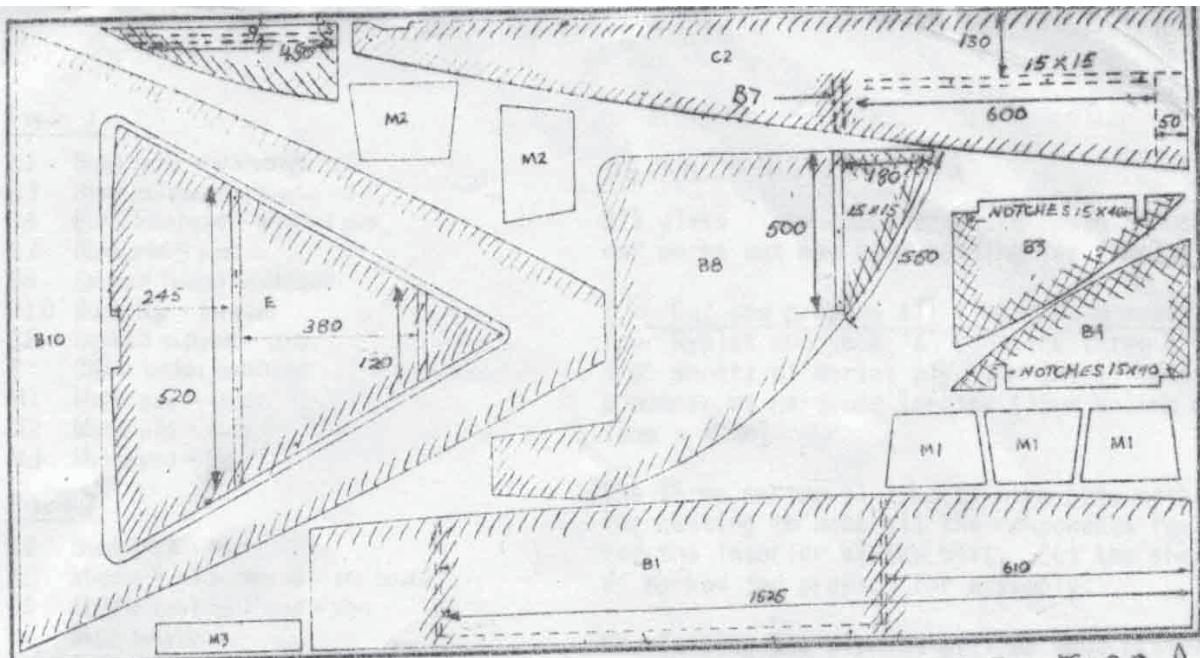

All materials and fittings which have been approved by the Express Boating Organisation are wither marketed in their own "Express Boating" packs or have been selected from the range of products marketed by Ryplas Distributors Limited.

This includes all the glass fibre materials, the Marineply and timber components, the mast, boom, rigging and fittings.

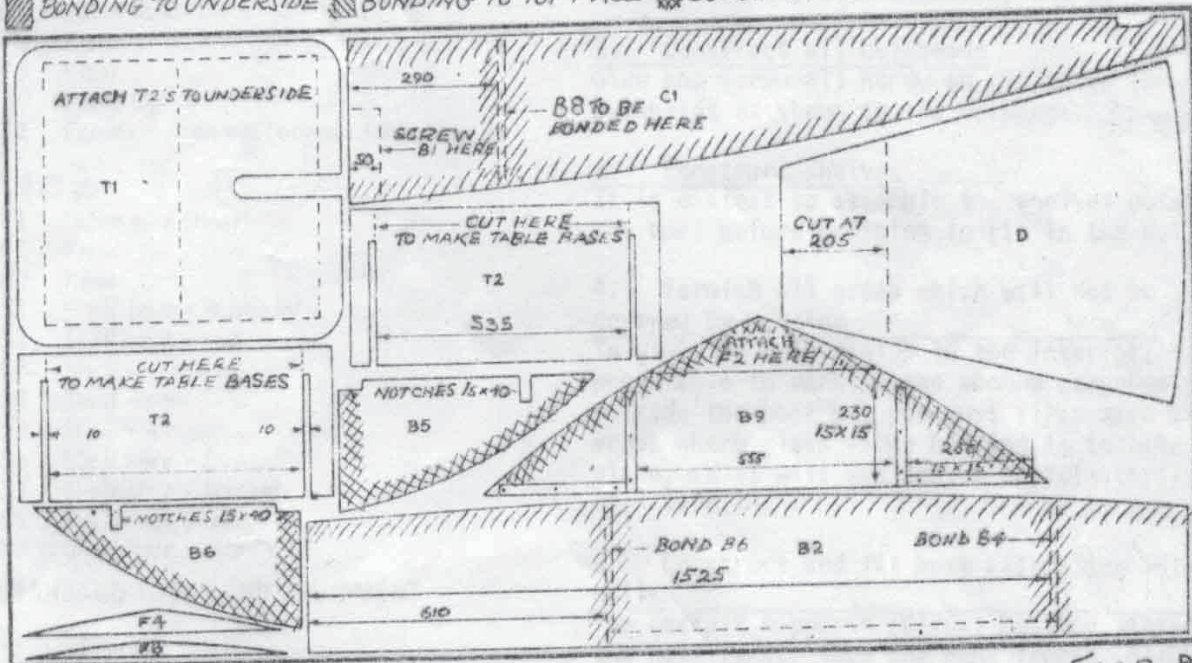

All these materials are stocked at your Express Boating Centre who will fully advise you on this aspect and from whom you should obtain a copy of the Ryplas glass fibre handbook.

Throughout these instructions the drawings, sections and sketches ('the plans') form part of the Express Pirate Class Rules.
